

## DK120 BASIC RFID CARD READER DOOR ACCESS (ENTRY)

The door access control system refers to the devices installed at the entrances of business premises to help in monitoring people who enter or leave the premises. These systems comprise of automated devices that can detect, record and send both video and audio files.

Installing a door access control system at the entrance of your business premises is a wise idea for managers who aspire to limit chances of the staff members taking part in unethical acts. This can save the enterprises from the massive loss resulting from such unethical behavior. Consider the situation where staff members are untrustworthy. Installing the system can help you reduce theft issues.
