

TTS470 – MAG MOTORIZED TRIPOD TURNSTILE

The TTS470 motorized tripod turnstile is a specialized pedestrian gate commonly deployed at the entrances of high-traffic public venues. Outfitted with an access control reader, its primary purpose is to rigorously control and restrict unauthorized entry, all the while preserving a friendly and inviting environment for visitors. It's important to note that this particular turnstile is engineered to allow only individuals to pass through, ensuring that luggage or larger items remain on the outside. Notably, the TTS470 stands out as the pinnacle of anti-tailgating technology while requiring minimal maintenance, making it the top choice among all pedestrian gate options for reliability and security

Features of TTS470 – MAG Motorized Tripod Turnstile

- ✓ Indoor Access Control at Waist Level
- ✓ Standard Dimensions for Durable Performance
- ✓ Semi-Automatic Arm Activation
- ✓ Cost-Effective Solution for Medium to High Foot Traffic
- ✓ Dual-Layer Anti-Tailgating Security
