Global Trend

With the expansion of the internet and its services, human resources (HR) mobile apps are becoming common in the workplace to allow employees to directly access information immediately. This is why well-designed and user-friendly human resource mobile apps essentially create a form of employee self-service. This, in turn, lowers the workload of the HR department, shifting the responsibilities and time spent to the employee.

We would like to introduce Smarttouch Mobile App aka SmartGoGo. An app that empower Staff with easy access to attendance, payslips, leave, and claims

E-Leave, E-Claim, E-Payslip, Attendance Record

Help you to manage and keep track the time attendance of each worker

Features

- Designed specifically for a mobile workforce
- Anytime access to payroll and human resources data
- Manage expenses, Leave and timesheet transaction on your device
- Android and iPhone compatible
- Optimised workflow approvals

Benefit

- Reduced administration costs
- HR enablement - frees up time for more strategic activities
- Improves data access company-wide and reduces the admin burden on HR and payroll
- Payslip distribution via smartphone saves time and costs

Advantages with using Smartgogo

- Convenient Attendance Tracking:** SmartGoGo offers a hassle-free attendance tracking feature, allowing employees to view their attendance records effortlessly. Whether they need to check their clock-in and clock-out times, review their late or early departures, or monitor their overall attendance history, SmartGoGo provides a user-friendly interface that grants employees instant access to their attendance data.
- Access to Payslips:** SmartGoGo revolutionizes payslip management by enabling employees to easily access their digital payslips, even from previous months. Say goodbye to the inconvenience of requesting physical copies or struggling to locate past payslips. With SmartGoGo, employees can view, download, and save their payslips securely, providing them with a comprehensive overview of their salary history at their fingertips.
- Effortless Leave Management:** SmartGoGo simplifies the leave management process, empowering employees to view their leave records and status effortlessly. Whether they want to check their available leave balance, review past leave requests, or track the status of pending requests, SmartGoGo streamlines the process, ensuring transparency and reducing the need for manual follow-ups.
- Real-Time Claim Updates:** With SmartGoGo, employees can easily stay updated on the status of their reimbursement claims. Gone are the days of uncertainty and constant inquiries. SmartGoGo provides a real-time view of the progress of each claim, allowing employees to track the status, including pending, approved, or rejected claims. This transparency improves employee satisfaction and eliminates unnecessary delays in the reimbursement process.
- User-Friendly Interface:** SmartGoGo prioritizes a seamless user experience, ensuring that staff members can navigate the app effortlessly. The intuitive interface guides users through the various features, making it easy for employees to find the information they need quickly. SmartGoGo is designed to be user-friendly, even for those with minimal
- Data Security and Privacy:** At SmartGoGo, we understand the importance of data security and privacy. Our app employs robust encryption protocols and secure servers to protect sensitive employee information. With SmartGoGo, employees can rest assured that their personal data, including attendance records, payslips, and leave details, are safeguarded, fostering trust and confidence in the HR management process.
- Enhanced Productivity and Empowerment:** By providing employees with easy access to their HR-related information, SmartGoGo promotes a culture of productivity and empowerment. Staff members can independently review and manage their attendance, payslips, leave, and claims, reducing the administrative burden on HR teams. This self-service approach frees up valuable time for both employees and HR personnel, enabling them to focus on more strategic initiatives.

Discover the power of SmartGoGo app today and empower your staff with seamless access to their attendance records, payslips, leave status, and claim updates. Say goodbye to manual inquiries and embrace a future where HR management is simplified, transparent, and empowering for all. Welcome to a new era of HR self-service!

Smartgogo is a user-friendly online platform where individuals can check their own attendance, e-payslip and e-claim status. Besides, e-attendance, e-payslip, and e-claim, the Smartgogo also has additional support functionality of e-leave, individuals can monitor their own records of leave entitlement, and application and updated status.

e-attendance

E-attendance refers to the process of tracking and recording employee attendance through an online platform. This can include logging in and out through a website or application, and may include features such as tracking location, scheduling shifts, and generating reports. The system can also integrate with other HR and payroll systems for **efficient management of attendance records**

e-Payslip

E-payslip is an electronic version of a traditional paper payslip that employees receive to inform them of their earnings, deductions and net pay. This is accessible via a secure portal or website where employees can log in and view their payslip, using their unique user ID and password or via a single sign-on process. Some of the benefits of online payslips include easy access, secure storage and retrieval, less paper usage and easy sharing.

e-Leave

E-leave refers to the process of managing individual leave requests and approvals through an online platform. This can include employees submitting leave requests through a website or application, managers reviewing and approving or denying the requests, and the system tracking and recording the leave taken. This process can also integrate with **other HR and payroll systems for efficient management of leave records.**

The benefits of an online leave system include easy access, streamlined communication, and efficient record-keeping, and being paperless. With E-leave, employees can quickly apply for leave, managers can easily approve or deny requests, and HR can clearly see who is out of office and when.

e-Claim

E-claim refers to the process of submitting and processing claims for reimbursement or benefits through an online platform. This can include employees submitting claims for expenses or other benefits through a website or application, and the system automatically reviewing, approving, or denying the claims.

This process can also integrate with other systems for efficient management of claims records. The benefits of an online claim system include easy access, streamlined communication, and efficient record keeping as well as paperless. With E-claim, claimants can quickly submit their claims, the process can be automatically and reviewed by the **system, and the decision can communicate in real time.** This can help to improve the speed and accuracy of claim processing and can help to reduce administrative costs.
